

I wanted to contact you regarding KLOVE radio stations and the new LPFM and how it will possibly affect current FM translators. It is my understanding that there is a possibility if this happens that KLOVE could be taken off of the airwaves. As a consumer and a citizen I would like for you to know that KLOVE serves this community and believe it to be unfair for this to happen. Now if you can guarantee KLOVE radio a place within this new LPFM broadcast service I feel that would be the only fair thing for you to do. There is so much garbage allowed on tv and radio these days that a few good things that minister and bless so many shouldnt be that much to ask for. Thank you for taking the time to read my comments. My family will be praying that you will make the right choice.
